For Thanksgiving 2025, one of the newest and most bizarre trends is the Dubai Chocolate Turkey:

The turkey is prepared with a blend of rich molten chocolate, pistachios, and shredded crispy pastry known as kataifi.

The recipe also incorporates classic warming spices like nutmeg and cloves.

To complete the extravagant dish, the turkey is dusted with edible gold.

The trend is driven by a desire to combine bold, global flavors with the holiday tradition and create a share-worthy, visually-stunning centerpiece for the table.

What do you say? Is your family going to give it a try?
